24 JUL 1981

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM:

Deputy Director for Administration

SUBJECT: Central Intelligence Agency Annual Report
of Accident Analyses - 1980 1. Action Requested: None; for information only. 2. Background: The Safety Group has prepared the attached
Annual Report of Accident Analyses for your information.

As indicated in the summary on page 4, the incidence rate (IR), the yardstick used by the Department of Labor, decreased from 2.2 for 1979 to 2.1 for 1980. The IR was also 2.1 for 1978. (The IR is the number of injuries and illnesses, excluding first aid, per 200,000 employee hours worked.) The IR for the Federal Government for 1980 is 6.4 compared to 6.7 for 1979.

The summary also reflects that nonfatal and lost workday cases decreased by 5 and 15 respectively. The resulting lost workdays and restricted activity workdays also decreased from an average of 6 1/2 days to 5 1/2 days per case, an indication that the overall accidents were not as serious as in the past. The two most serious injuries were the results of a fall in the Headquarters compound and using a paper cutter in the Printing and Photography Building. These two injuries resulted in a total of 126 days lost and 171 days of restricted activity.

The special analyses section on page 7 indicates that the major cause of injuries continued to be slips and falls which accounted for 37 percent of the lost workday and nonfatal injuries. The total of these injuries increased from 89 to 106. Slips and falls are being singled out for special attention. These accidents will be reviewed for causative factors and corrective actions will be coordinated through the appropriate officials. Causes of slips and falls will receive special emphasis during safety inspections and distribution of educational posters and literature to Agency employees will be stressed.

Regraded Unclassified when separated
from Classified Attachment(s)

OS 1 1332

~~SECRET~~

It is pleasing to note that fire losses were at a minimum, \$6,000.00. This loss was the result of an automobile fire. The loss from motor vehicle accidents was \$24,212.05, an increase of \$9,431.82 over the previous year. The fire and motor vehicle losses do not include those incurred as a direct result of hostile action overseas. ☐

INTRODUCTION

1. The Central Intelligence Agency's Safety and Health Program is conducted in compliance with the Occupational Safety and Health Act (OSHA), Executive Order 12196 and Title 29 Code of Federal Regulations Part 1960, Basic Program Elements for Federal Employee Occupational Safety and Health Programs; Final Rule. []

25X1

2. The statistics in the Central Intelligence Agency's Annual Report of Accident Analyses for 1980 are based on accidents, fires, injuries and illnesses defined, reported and recorded in accordance with guidelines furnished by the Secretary of Labor. The report includes analyses of the incidents listed in subparagraphs a, b, c, and d which occurred during calendar year 1980 and were reported to the Safety Group by 31 January 1981. []

25X1

a. Occupational injuries and illnesses incurred by Agency employees (staff, contract C, E and I, staff agents, summer, [])

25X1

b. Accidents involving official and quasi-personal motor vehicles.

c. Accidents which resulted in damage to other types of Agency equipment.

d. Fires which resulted in personal injury or damage to Agency property or equipment.

3. Reports furnished by the Office of Personnel, Office of Medical Services, Office of Logistics, Office of General Counsel, and Accident Report Form 2652a forwarded to the Safety Group in compliance with [] and [] were utilized in these analyses. []

SECRET

DEFINITIONS

1. Occupational Injury is any injury which results from a work accident.
2. Occupational Illness is any abnormal condition or disorder caused by exposure to environmental factors associated with employment.
3. Categories of occupational injuries and illnesses are as follows:
 - a. First Aid - one-time treatment and subsequent observation for minor scratches, cuts, bruises, etc., which do not ordinarily require medical aid.
 - b. Fatality - an employee's death resulting from an occupational injury or illness.
 - c. Lost Workday - cases, other than fatalities, that result in the loss of one or more days from work, or one or more days of restricted activity, beyond the date of injury or detection of illness.
 - d. Nonfatal - cases, other than Lost Workday, that result in one or more of the following: (1) medical treatment beyond first aid, (2) diagnosis of occupational illness, (3) loss of consciousness, (4) permanent transfer to another job.
4. Days Lost are the workdays, after the date of the injury or illness, for Lost Workday cases that the employee would have worked but could not.
5. Days Restricted are the workdays, after the date of the injury or illness, for Lost Workday cases that (1) the employee worked at a permanent job less than full time, (2) was assigned to another job on a temporary basis, or (3) worked at a permanently assigned job but could not perform all duties normally connected with it.
6. A Motor Vehicle Accident is any occurrence involving an Agency official or quasi-personal vehicle while operated which results in death, injury or property damage of \$100 or more, regardless of who was injured or what property was damaged.

UNCLASSIFIED

7. Other Accidents include incidents which result in damage of \$100 or more to Agency property or equipment.

8. Fires include incidents of unplanned burning which result in damage to Agency property or equipment.

9. Incidence Rate (IR) is the number of injuries and illnesses, excluding first aid, per employee hours worked. The IR formula is:

$$IR = \frac{\text{Number of Injuries and Illnesses} \times \text{$$

Employee Hours Worked

10. Motor Vehicle Accident Frequency Rate is the number of accidents per 1,000,000 miles driven. Written as a formula:

$$FR = \frac{\text{Number of Accidents} \times 1,000,000}{\text{Miles Driven}}$$

UNCLASSIFIED

SUMMARY

1. The Incidence Rate (IR) for occupational injuries and illnesses incurred by CIA employees during calendar year 1980 is 2.1 compared to 2.2 in 1979 and 2.1 in 1978. This slight decrease was due primarily to a reduction of 15 lost workday cases. The Incidence Rate for the Federal Government is 6.4 for 1980 and was 6.7 in 1979.

2. The number and severity of occupational injuries and illnesses for 1980 compared to 1979 are as follows:

- a. Fatalities, 0 in 1980; 0 in 1979.
- b. First aid cases, 360 in 1980; 326 in 1979.
- c. Lost workday cases, 132 in 1980; 147 in 1979.
- d. Nonfatal cases, 152 in 1980; 157 in 1979.
- e. Total cases, 644 in 1980; 630 in 1979.
- f. Days lost, 1,000 in 1980; 1,658 in 1979.
- g. Days restricted, 539 in 1980; 337 in 1979.

3. The motor vehicle accident frequency rate is 3.8 for 1980 compared to 2.3 for 1979.

4. The fire loss was \$6,000 in 1980 compared to \$3,058,350 in 1979. The loss in 1980 was due to a motor vehicle fire.

5. The \$2,683 "other accident" loss was the total of seven minor incidents of property damage.

SPECIAL ANALYSES

1. The first major cause of lost workday and nonfatal injuries/illnesses is slips and falls, 37 percent. Seventy-seven percent of these accidents occurred in the Headquarters area, forty-nine percent of which occurred within the Headquarters building and compound. The second major cause of injuries/illnesses is material handling, including lifting, 18 percent.

2. Thirty-four percent of the lost workday and nonfatal injuries/illnesses were incurred by employees away from the Headquarters area, fourteen percent of which were incurred overseas.

3. Employees in the 20-24 year age group incurred the highest rate of injuries, 15 percent. The 30-34 age group incurred the next highest rate, 14 percent. Employees in these two age groups incurred 29 percent of the total injuries/illnesses, whereas they comprise approximately 22 percent of the Agency's employees.

4. Two employees incurred three injuries each and twenty employees incurred two injuries each. Seven of these injuries resulted in lost time from work.
